

## AUTUMN WINTER 2020 FOOTWEAR

For Autumn Winter 2020, dunhill introduces three new footwear styles direct from the Paris runway: the dunhill Creeper Derby, Creeper loafer and the dunhill Link loafer.

Inspired by the platform soled creepers associated with British punk culture of the 1970s, the lace-up Creeper Derby and slip-on Creeper loafer are finished in black brushed calf leather - for a luxurious take on this distinctly British style.

Utilising sneaker sole technology, the ribbed rubber platform sole is emptied and then injected with a lightweight compound for more comfortable wear; whilst the insole features a carbon active cushion, for added breathability.

Playing with proportions, the dunhill Link loafer combines a slim leather sole with exaggerated chain link hardware, referencing chain watch straps. A cross between the preppy and the new wave.

Inspired by slimmer loafers from the 1970s, the chain link hardware is assembled by hand and finished in AD brass. Engraved with the dunhill Longtail logo, it is applied to the calf leather upper which is brushed to give a subtle clouding effect.

Available from August 2020, the dunhill Creeper Derby is £575, the dunhill Creeper loafer is £535 and the dunhill Link loafer is £725.
