

AUTUMN WINTER 2021 FOOTWEAR

Celebrating the House's automotive heritage, dunhill introduces its new footwear collection for Autumn Winter 2021.

AERIAL GT & AERIAL STRAP RUNNER

Inspired by car interiors, the Aerial Runner has been updated with two new styles that build on the existing lightweight sole technology.

A tactile addition for the season, the Aerial GT Runner is crafted in quilted Nappa leather, reminiscent of the padded seating found in modern grand touring cars.

Echoing the look and feel of a car seatbelt, the Aerial Strap Runner features a removable strap closure applied to the brushed leather upper.

Both available in black or white leather, these sneakers have a technical fabric lining and House branding on the heel and lace compartment.

DUKE FACET & DUNHILL CREEPER STRAP DERBY

Utilising the same strap functionality, the Duke Facet and dunhill Creeper Strap Derby renew these signature silhouettes with a sportier aesthetic.

Constructed from brushed leather, the Duke Facet Strap Derby features a brass toe-tap inspired by high-ranking military officer boots – offering protection to the front of the sole.

The dunhill Creeper Strap Derby maintains the re-engineered ribbed creeper sole and introduces a scotch-grain textured trim to the upper.

DUNHILL CREEPER CHELSEA BOOT

Integrating the elevated creeper sole with a Chelsea boot style upper, the House launches a new hybrid – the dunhill Creeper Chelsea Boot. Applying the same removable strap detail inspired by car seatbelts, archetypal Chelsea boot elements – including elastic side panels and wide pullers on the front and back – are featured.

Launching from September 2021, prices range from: £625 - £825 / €695 - €895 / \$850 - \$1,050.
